

ThinkPad Proven and WorkPad Proven Solutions

ThinkPad®

Adding value to your IBM ThinkPad notebook and IBM WorkPad PC Companion

*Tested, warranted and supported by manufacturer to ThinkPad Compatibility Standards.

*Tested, warranted and supported by manufacturer to WorkPad Compatibility Standards.

Proven program innovation

In response to requests for a greater selection of ThinkPad® and WorkPad® mobile solutions, IBM created the innovative ThinkPad Proven™,^{1,2} and WorkPad Proven™ programs in collaboration with industry-leading manufacturers. This program opens the door to a wider variety of products, services and technologies that enhance and protect your ThinkPad and WorkPad investment.

The ThinkPad and WorkPad Proven Program

Before a participating vendor can use the ThinkPad or WorkPad Proven emblem, the manufacturer must state that the product has been tested and warranted by the manufacturer, and will be supported according to the demanding ThinkPad and WorkPad Compatibility Standards. Specifically:

- The manufacturer has stated to IBM that the test procedure has been completed and the product is in full compliance with ThinkPad and WorkPad Compatibility Standards.
- The product is warranted by the third-party manufacturer for a minimum of one year and in many cases, for three years (90 days for software).
- The product has been approved for use on specific ThinkPad notebook and WorkPad models, as evidenced by the Proven emblem on the package.
- The manufacturer meets or exceeds specific customer support standards.

¹ Warranty, service and support for non-IBM products are provided directly to you by the non-IBM manufacturer, supplier or publisher of this product. IBM makes no representations or warranties regarding non-IBM products referenced in this publication, including but not limited to Year 2000 readiness and any implied warranties of merchantability and fitness for a particular purpose.

² Unless otherwise noted, ThinkPad/WorkPad Proven products are certified to work on the latest model(s) in the 240, 380, 390, 560, 570, 600, 770, and iSeries ThinkPad families. In most cases, the products will work on all other ThinkPad models, but users should be advised that older systems were not tested.

ThinkPad Proven and WorkPad Proven

The following pages list partners and products that accessorize and upgrade your ThinkPad notebook and WorkPad PC Companion.

ThinkPad Proven

Carrying Cases

PORT, Inc. 9

Connectivity—including an array of modems, LAN adapters and communication devices, allowing for fast access to databases, online services and the Internet

Artisoft, Inc. 3
 Ericsson 5
 JP Systems, Inc. 6
 NOKIA Mobile 8
 PORT, Inc. 8-9
 3COM 10

Infrared accessories—optimize the infrared capability of your ThinkPad notebook and WorkPad PC Companion

Extended Systems, Inc. 5

Memory—memory upgrades for your ThinkPad notebook allow you to speed through today's demanding applications faster than ever

Apricorn, Inc. 2-3

Multimedia—utilize DVD technology, listen to music, play games, or add digital images to your presentations

Altec Lansing, Inc. 2
 CNF Portable Peripherals 4
 Margi Systems, Inc. 7
 Xirlink, Inc. 12

Power—extra ThinkPad notebook AC or DC power adapters allow you to work at home or while traveling

Lind, Inc. 7

Security—protect your ThinkPad notebook investment and your valuable data from damage and theft

Compu-Lock, Inc. 4-5
 PORT, Inc. 8-9
 Veridicom, Inc. 11

Storage—solutions for today's ever-increasing storage requirements

Addonics, Inc. 1
 Apricorn, Inc. 2-3
 CNF Portable Peripherals 4
 VST Technologies, Inc. 11

Wireless messaging—sophisticated paging networks for the high-speed movement of data

PageMart, Inc. 8

We are pleased to announce solutions for both the Microsoft® Windows® CE and Palm Computing Platform® (Palm OS) on your IBM WorkPad PC Companion.

SCSI host adapters

Adaptec, Inc. provides a variety of solutions for ThinkPad notebooks and the WorkPad z50 PC Companion, including high-performance SCSI peripherals.

- SCSI adapters enable you to attach up to seven peripherals including CD-ROMS, removable drives (Iomega Zip/Jazz, Syquest and magneto-optical drives), hard disk drives, scanners and tape drives to your PC, through the PC Card (PCMCIA) slot.

- APA-1450B For removable drives. Connects up to seven SCSI peripherals via daisy-chain, supports removable media drives with SCSI-2 and DB 25-pin connections and has a permanently attached cable (with adapter). For all ThinkPad systems with Windows 95 or 98.
- APA-1460B For peripheral devices. Connects up to seven SCSI peripherals via daisy-chain with SCSI-1 and SCSI-2 detachable cable options. For all ThinkPad systems with Windows 95, 98, Windows NT® 4.0, DOS, Windows 3.1, OS/2® and WorkPad systems with **Windows CE**.
- APA-1480A For high-performance peripherals. CardBus to Ultra SCSI host adapter. Supports up to seven SCSI peripherals via daisy-chain with SCSI-1 and SCSI-2 detachable cable options and provides bus mastering support and low power consumption. For all ThinkPad systems with Windows 95 or 98.
- APA-1350 Mini SCSI 1350 50-pin high-density adapter. Connects up to four devices at peak performance. Burst transfer rates up to 2MBps. Supports EPP, ECP, bidirectional, unidirectional and standard parallel ports. For all ThinkPad systems with Windows 95 or 98.

Storage

Addonics, Inc. is a leading supplier of "add on" storage devices that connect to ThinkPad notebooks and the WorkPad z50 PC Companion to provide additional storage and functionality.

- **Pocket CD98** (24X³) connects via the USB port of your ThinkPad notebook
- Addonics' **Pocket Zip™ Drive** (100MB removable storage) and **PocketSuperDisk™ LS-120 Drive** (120MB removable storage) connect easily through the PCMCIA slot (Type I or II) of your ThinkPad or WorkPad z50 PC Companion.

- The **PocketSuperDisk** also allows backward compatibility with diskette drives, eliminating the need for a notebook's separate drive. Both drives can be powered through your ThinkPad's battery or from the included AC/DC power adapter.

- AECD98CDUM Pocket CD98 24X CD-ROM, USB connect (Windows 98)
-  AEPZIP2000 PocketZip 100MB Zip Drive (includes AC/DC power adapter)

Multimedia

Altec Lansing, Inc. is a leader in the design, manufacture, marketing and support of high-quality multimedia for personal computer and home entertainment sound systems.

- **USB technology** allows multimedia audio to enter the digital domain so that you can experience real-life sound reproduction via your ThinkPad notebook.

- Featuring USB connection, the **Digital PowerCube™** is a three-piece audio system.
- Altec Lansing's **True Digital Audio™** technology delivers digital audio from the USB system for realistic audio playback.
- The Digital PowerCube is compatible with Altec Lansing's audio management software which is available for download at www.altecomm.com.

Storage

Apricorn's **EZ-Gig** is a one-click, do-it-yourself hard disk drive upgrade for ThinkPad notebooks.

- EZ-Gig allows you to transfer the entire contents of your hard disk drive, without altering any data or settings, onto a new larger-capacity IBM or Apricorn replacement drive (see following list).
- The new system is then installed and booted exactly as before; no reconfiguration is necessary.
- **EZ-Gig Data Transfer Utility Kit** gives users, service centers and MIS directors the ability to upgrade their ThinkPad computer hard disk drive in minimal time.

(continued)

- Apricorn also has replacement hard disk drives for selected ThinkPad notebooks allowing you to upgrade your hard disk drive capacity.

EZPI EZ-Gig Hard Drive Upgrade Kit/Backup Utility/ External Notebook Storage. Includes EZ-Gig Software (10 licenses), IDE PC Card, Cable and External Case. For use with IBM hard disk drives and Apricorn's ThinkPad Proven hard disk drive replacements for ThinkPad 240, 360, 365, 370, 380, 390, 560, 570, 600, 750, 755, 760, 701, 770 and i Series notebooks.

Landware, Inc. is a developer of Personal Digital Assistant (**PDA**) and handheld software and hardware solutions for Palm OS devices. Landware offers a family of attachable keyboards for the IBM WorkPad 30x and c3. **Go Type! and GoType! Pro** are solutions for the mobile office customer that offer keyboard functions without the inconvenience of extra cables and bulk.

- GoType! Pro for the IBM WorkPad c3 also includes an additional serial port that enables direct desktop synchronization from the keyboard. This pass-through port also eliminates the need for an additional HotSync cradle when you are traveling.
- Go Type! Pro's power input enables users to recharge their IBM WorkPad c3 organizer while it is sitting in the keyboard.

APA-1613	Automobile Power Adapter for ThinkPad 365, 380, 560, 600 and Canon BubbleJet 70/80

Power

Lind Electronics provides automobile power adapters and portable power packs that are fused and regulated for safety, and specifically designed for use with IBM's ThinkPad product line and WorkPad z50 PC Companion.

- When an adapter is connected between an automobile cigarette lighter and your ThinkPad notebook, it operates as if it were plugged directly into an AC adapter wall unit.

Connectivity

PORT, Inc. offers three connectivity solutions that allow you to link your modem to phone systems with ease.

- The **AcoustiCoupler** with speeds up to 28.8Kbps permits you to make modem connections anytime or anyplace, including from pay phones.
- To ease the problem of tangled cords, PORT, Inc. also offers the **Retractable Phone Cord**—eight feet of cord that retracts to fit in your ThinkPad carrying case, or even in your pocket.
- Smart Connect Digital Phone Adapter—link your modem to any phone system, connect for e-mail or Internet access.

CMA0400	SureLink AcoustiCoupler 100
CMM0200	SureLink Retractable Telephone Cord
CMD0450	PORT SmartConnect Digital Phone Adapter— Link your modem to any phone system. Get connected for e-mail or Internet access by linking your modem safely and quickly to digital phones in your office or hotel room.
 CMD0800	PORT Modem Line Protector—Shield your modem from damage when connected to a digital phone line in hotels or offices.
 CMD0700	PORT Notebook Accessory Kit—Space-saving notebook light and paper clip, ergonomic mouse pad and keyboard pad, and a cleaning kit add extra comfort and convenience to portable computing.
 PA250U	Targus Cable Wheel—Eliminates cable clutter.

Connectivity series consists of three different organizer cases, each containing the telephone plugs and power adapters necessary to operate your ThinkPad computer in a particular region of the world.

CME0010	PORT Travel Connection Pack/Europe (Contents: 21 phone adapters; 3 power adapters)
CMP0010	PORT Travel Connection Pack/Asia-Pacific-Middle East (Contents: 12 phone adapters; 5 power adapters)
CMA0010	PORT Travel Connection Pack/Americas (Contents: 9 phone adapters; 5 power adapters)

Veridicom, Inc. is a provider of silicon-based fingerprint authentication technology. Veridicom Inc. offers the **5th Sense personal authentication peripheral and the Confirma data security software suite**. The 5th Sense is Veridicom's fingerprint reader PC peripheral, which attaches to a Universal Serial Bus (USB) or parallel port of your ThinkPad notebook.

- The Confirma software suite (SecureStart/SecureSuite/Protector Suite) is used in conjunction with the 5th Sense peripheral to provide a convenient, reliable and cost-effective way to authenticate users to a PC and protect unauthorized access to data.
- Confirma combines Veridicom's OpenTouch authentication software with application software to enable secure screen saver, disk encryption and a password bank for remembering dozens of user IDs and passwords for internet accounts and logon protection.

- VPAS100-USB-TP **5th Sense USB peripheral w/SecureStart (Windows 95/98) security software.** Allows secure logon and secure screen saver
- VAS200-USB-TP **5th Sense USB peripheral w/SecureSuite (Windows 95/98) security software.** Allows secure logon, secure screen saver, data encryption and PasswordBank™
- VPAS300-USB-TP **5th Sense USB peripheral w/Protector Suite (Windows 95/98) security software.** Allows secure logon, secure screen saver, disk encryption, PasswordBank and is SmartCard-ready.
- VPAS300-PRL-TP **5th Sense parallel port peripheral w/Protector Suite (Windows 95/98 and Windows NT) security software.** Allows secure logon, Windows NT domain logon, secure screen saver, disk encryption, PasswordBank and is SmartCard-ready.

- ¹ Warranty, service and support for non-IBM products are provided directly to you by the non-IBM manufacturer, supplier or publisher of this product. IBM makes no representations or warranties regarding non-IBM products referenced in this publication, including but not limited to Year 2000 readiness and any implied warranties of merchantability and fitness for a particular purpose.
- ² Unless otherwise noted, ThinkPad/WorkPad Proven products are certified to work on the latest model(s) in the 240, 380, 390, 560, 570, 600, 770, and iSeries ThinkPad families. In most cases, the products will work on all other ThinkPad models, but users should be advised that older systems were not tested.
- ³ Variable read rate. Actual playback speed will vary and is often less than the maximum possible.
- ⁴ Results obtained using BAPCo (Business Applications Performance Corporation) SYSmark Benchmark Test. Battery life (and recharge times) will vary based on many factors including screen brightness, applications, features, power management, battery conditioning and other customer preferences. Battery life may be less using Windows NT.
- ⁵ Designed to be capable of receiving at up to 56kbps with K56Flex or V.90 compatible phone line and server equipment, and transmitting at up to 28.8kbps. Public networks currently limit download speeds to about 53kbps. Actual speeds vary and are often less than the maximum.

Printed on recycled paper containing 10% recovered post-consumer fiber.
